10.45 am	Heat 2	Women's Four with Coxswain
11.00 am	Heat 1	Men's Eight
11.15 am	Heat 2	Men's Eight
3.00 pm	Repechage,	Men's Lightweight Four with Coxswain
3.15 pm	Repechage,	Women's Four with Coxswain
3.30 pm	Repechage,	Men's Eight

SATURDAY, 15 MAY

1.00 pm	Final,	Women's Lightweight Four with Coxswain
1.15 pm	Final,	Women's Pair without Coxswain (THE CHALLENGE TROPHY)
1.30 pm	Final,	Men's Single Scull (THE W.D. and H.O. WILLS TROPHY)
1.45 pm	Petite Final,	Men's Lightweight Four with Coxswain
2.00 pm	Final,	Men's Lightweight Four with Coxswain (THE SIR FRED J. SCHONELL CUP)
2.15 pm	Final,	Women's Eight (PROFESSOR GODFREY TANNER'S CUP)
2.30 pm	Final,	Men's Pair without Coxswain (THE CARLTON and UNITED GOBLETs)
2.45 pm	Final,	Women's Single Scull (THE KATH SUHR SCULLING TROPHY)
3.00 pm	Final,	Women's Four with Coxswain (THE LADY MARGARET CUP)
3.15 pm	Petite Final,	Men's Eight
3.30 pm	Final,	Men's Eight (THE OXFORD and CAMBRIDGE CUP)

A Short History of The Australian Universities' Rowing Contests

The Inter-Varsity Boat Race and Rowing Championships is one of the oldest established sporting events in Australia.

The first Inter-Varsity Boat Race in Australia was held on December 20, 1870, between four-oared crews representing the Universities of Sydney and Melbourne over a three-and-a-half mile course on the Yarra River. In the week following the Boat Race the participants also took part in the first cricket matches between the two Universities. Apart from an event contested by representatives of the Colonies of New South Wales and Victoria on the Parramatta River in 1863, there does not appear to have been any other contest of interstate status prior to the 1870 Inter-Varsity. The first race was won by Melbourne in 31 minutes 4 seconds. In the succeeding year a Melbourne Four again defeated Sydney, this time on the Parramatta River Course.

The race was not again contested until 1888, when an eight-oared event was staged with crews representing the Universities of Sydney, Melbourne and Adelaide, meeting on the Hambourg Reach course of the Yarra River. Melbourne was first, Adelaide second some five lengths behind, with a similar distance to Sydney in third place. Sydney, stroked by W.A. Conlon, recorded its first win in 1890, when it won from Melbourne on the Yarra course. Adelaide won for the first time in 1896 when a crew stroked by W.H. Gosse defeated Sydney and Melbourne on the Yarra course. The race has been rowed every year since 1888, except during the war years 1915-1918 and 1941-1945. There was no race rowed in 1965.

In 1896 a most appropriate trophy was provided for the Boat Race when Oxford and Cambridge "Blues" presented a cup as a perpetual trophy for the race. The historic value of such a trophy makes it unique in the field of Australian sport.

Until 1920 only Sydney, Melbourne and Adelaide contested the race, but in that year Queensland sent to Melbourne a crew stroked by T.J. Bale which finished in third place. The next year the Queensland University crew came second. In 1922 and 1923 the Queensland crews won. E.B. Freeman stroked both winning crews.

In 1924 the University of Tasmania competed for the first time. In 1925 its crew, stroked by R.A. Scott, won the race from Sydney in second place at Brisbane.

Western Australia competed for the first time in 1927, when a crew stroked by F.A. Williams won on the Nepean River course in New South Wales. This was the first occasion on which a crew had won at its first start since the original race in 1870; it was also the first occasion at which Universities from all States of the Australian Commonwealth were represented.

In 1956 the University of New South Wales made its first appearance at Inter-Varsity rowing and Monash entered for the first time in 1963. In 1966, the Australian National University and Newcastle University both made their debuts and in 1969 La Trobe entered for the first time. Macquarie University first entered in the eight-oared event in 1973.

The Sculling Championship was introduced in 1927 and it was in this contest for the W.D. & H.O. Wills Trophy that Flinders and Macquarie Universities made their Inter-Varsity rowing debuts in 1969. The Lightweight Coxed Fours Championships for the Sir Fred J. Schonell Cup was introduced in 1963 over a 2000 metre course and was won by Melbourne. In 1969 a Coxswainless Pairs Championship over 2000 metres was introduced with its inaugural contest being won by Melbourne. That year also saw the final break with the notion of the Thames Putney-Mortlake course of four-and-a-half miles used by Oxford and Cambridge being a suitable model for the Australian Boat Race for the Oxford and Cambridge Cup. All events are now staged over the international standard distance of 2000 metres on a straight course.

1975 saw the combining of the men's and women's rowing contests in Franklin, Tasmania. The women's events rowed that year were a Coxed Four, Coxed Pair and Single Scull, all events being rowed over 1000 metres.

The Centenary Cup, donated by the N.S.W. Rowing Association on the occasion of their hundredth anniversary was introduced in 1978 for an overall points score. In the same year, the Women's Lightweight Four and a Women's Invitation Eight were introduced, the Eight and Four being won by Melbourne.

This year the Championships are in Victoria at historic Ballarat and will be rowed on the 1956 Olympic Games Course on Lake Wendouree. We greatly appreciate the co-operation and assistance of the Ballarat City Council and thank the officials and all who have helped in setting up the course and running the Regatta. We extend a welcome to visiting rowers and wish all competitors the best of luck and good rowing.

History of the City of Ballaarat

(HOST CITY FOR THIS CHAMPIONSHIP)

Ballaarat has evolved from a pastoral lease, through the halcyon days of the gold rushes, to a modern city, centre of a rich agricultural and pastoral district, and with a sound basis in industry, transport and tourism.

In 1837, under pressure of a bad drought, Thomas Learmonth and a group of squatters explored the area to the north of their settlement near Geelong in search of better watered regions. On this journey they reached and climbed Mt. Bonan Yowing (now Buninyong) and were thus the first to see the Ballaarat area. In March 1838, two squatters, Yuille and Anderson, settled with their flocks on the banks of an area known as Black Swamp, now Lake Wendouree, which was the site of the 1956 Olympic Games rowing and canoeing events.

The Ballaarat area was occupied by pastoralists from the 1830's, but little further progress was made until the 1850's when in 1851 gold was found at several points around present Ballaarat. This precipitated a great rush to the area, and the rapid growth of the new town of Ballaarat. In 1853 there were an estimated 20,000 miners in the district; the foundations of the present city were laid in this period of the early 1850's, goldrush days, when miners flooded into Ballaarat from all over the world.

Some idea of the scale of mining in those days in Ballaarat can be gained from the fact that in 1853, over 300,000 ounces of gold were sent to Melbourne from Ballaarat. The Welcome Nugget, found at Bakery Hill in 1858, weighed 2,217 ounces.

Ballaarat was the scene of Australia's most famous civil insurrection. On 3rd December, 1854 at Eureka, miners clashed with police and detachments of the 12th and 40th regiments. In all, 28 men were killed and a large number wounded.

Gold mining continued to be a major activity for over twenty years. Although the early found alluvial gold soon petered out, many companies were formed in the late 1850's and the 1860's to mine deeply for the underlying quartz lodes. In 1868 there were over three hundred such companies operating.

From the 1870's there was a decline in mining activity, and in the population of Ballaarat. But the town's basis had been well established by this time and its activities broadened into other industries, such as an iron foundry, flour milling and textile manufacturing.

Ballaarat was proclaimed a township in 1852, created a municipality in 1855, a borough in 1863, and was proclaimed a city on 9th September, 1870.

The golden era is today commemorated in Ballaarat by cairns and memorials, and by a tourist park which recreates the atmosphere of the gold rush days.

The original spelling of "Ballaarat" is still used in official circles and derives from the Aboriginal balla-ararat, meaning "resting place." Lake Wendouree was a favourite camping place of the local tribe.

Notice to Competitors

1. The Representatives' Meeting will be held at 8.00 p.m. on Wednesday, May 12, at the Ballarat and Clarendon College Boat Shed, Lake Wendouree.
2. The briefing of Strokes and Coxswains will take place at the Ballarat and Clarendon College Boat Shed, Lake Wendouree, at 5.30 p.m. on Thursday, May 13.
3. Coxswains shall weigh in:
 - (a) between 3.00 p.m. and 7.00 p.m. on Thursday, May 13, at the Ballarat and Clarendon College Boat Shed, Lake Wendouree;
 - (b) at the presentation point at the finish of the course, immediately after winning a race.
4. Lightweight competitors shall weigh in at the Ballarat and Clarendon College Boat Shed, Lake Wendouree not more than two hours and not less than one hour before their first race on each day if racing. They are not required to weigh in after winning a race.
5. The minimum weight for a coxswain for women's open and for women's lightweight events is 45 kg. The minimum weight for a coxswain for men's events is 55 kg. A coxswain must be of the same sex as the crew he/she steers.
6. Lightweight races are restricted to male rowers and scullers weighing 72½ kilograms or less and female rowers and scullers weighing 59 kilograms or less, provided that the average weight of all members of the crew in which such rower races (excluding the coxswain) does not exceed 70 kilograms in the case of male rowers and 57 kilograms in the case of female rowers.
7. Crews have the right to replace up to fifty percent of their rowers and the coxswain as well, with other eligible competitors. Notification of crew changes must be made in writing to the Regatta Secretary at least one hour before the start of the race. No substitute is permitted for a single sculler. Substitutions between heats and finals may only be made in a crew which has already raced in a heat of its event except in the case of serious illness or accident in which case a medical certificate shall be tendered to the Referee and the Jury shall determine whether such a change shall be permitted.
8. THE REGATTA SHALL BE CONDUCTED UNDER THE RACING CODE OF THE AUSTRALIAN AMATEUR ROWING COUNCIL EXCEPT WHERE THOSE LAWS CONFLICT WITH A.U.S.A. PROVISIONS AND REGULATIONS, IN WHICH CASE A.U.S.A. PROVISIONS AND REGULATIONS WILL PREVAIL.
9. **Station One** is on the side of the Judges' Box.
10. Competitors must be at their starting positions at least two minutes before the time laid down for the start. The Starter may warn or exclude from the race any crew arriving at its starting position less than 2 minutes before the starting time. A warning has the same effect as one given for a false start.

11. The start is not delayed for broken oars, fittings or equipment unless the Umpire in his/her discretion so decides.
12. As soon as the Judge at the Start is satisfied that the boats are properly aligned, he/she indicates this to the Starter by raising a white flag. The Starter raises a red flag and after making sure all crews are ready gives the warning command "ARE YOU READY?" and after a clearly marked pause, the starting command "GO", at the same time quickly lowering the red flag to one side.
13. If a crew starts too soon the Judge at the Start informs the Starter and Umpire by waving a red flag and by ringing a bell. The Starter stops the race by ringing a bell and waving a red flag.
14. Any crew or sculler responsible for two false starts shall be excluded from the race.
15. In the event of any damage to a boat or equipment within the first hundred metres from the start the race shall be stopped and re-started from the original point, at a time to be determined by the Umpire in consultation with the Referee.
16. If a crew or sculler is about to impede another by iys wash or by leaving its lane the Umpire raises a white flag and calls to the crew at fault, indicating the required change of direction by lowering the flag to one side.
17. Crews interfering with their opponents may be excluded from the race by the Umpire but normally only after a warning has been given.
18. If a crew's chances of qualifying for or of winning a final are prejudiced by interference, the Umpire shall stop the race by waving a red flag and ringing a bell. The Umpire shall impose such penalties as he sees fit and shall order a re-start from the original point, at a time to be determined by the Umpire in consultation with the Referee.
19. The signal to finish shall be by sound signal given by the Judge.
20. Immediately after the race the winning crew shall proceed to the presentation point for the weighing in of the coxswain (if the race was coxed) and the presenation of trophies.
21. As from 9.00 a.m. on Tuesday 11th May, speed boats will not be permitted on the lake.
22. In the interests of safety NO CREW OR SCULLER may row on any part of the course FROM THE FINISH TO THE START and bow balls must be affixed to boats and sculls at all times.

(Perpetual Trophy presented by the N.S.W.R.A.)

1978	Melbourne
1979	Melbourne
1980	Melbourne
1981	Melbourne

Expending energy.

Conserving energy. Pyrox.

Pyrox is proud to be sponsoring the athletes who are expending every ounce of their energy on Lake Wendouree.

But Pyrox is concerned with conserving energy. So we've made several innovations in the gas heating world. Pyrox hot water units have modulating burners; if you only need a little hot water, you only use a little gas.

Because every drop of energy counts, Pyrox central heating units are pilotless. Pyrox space heaters produce instant warmth, and by controlling the individual burners, you control the energy used. So there's less waste.

Pyrox. An Australian company conserving energy for Australians.

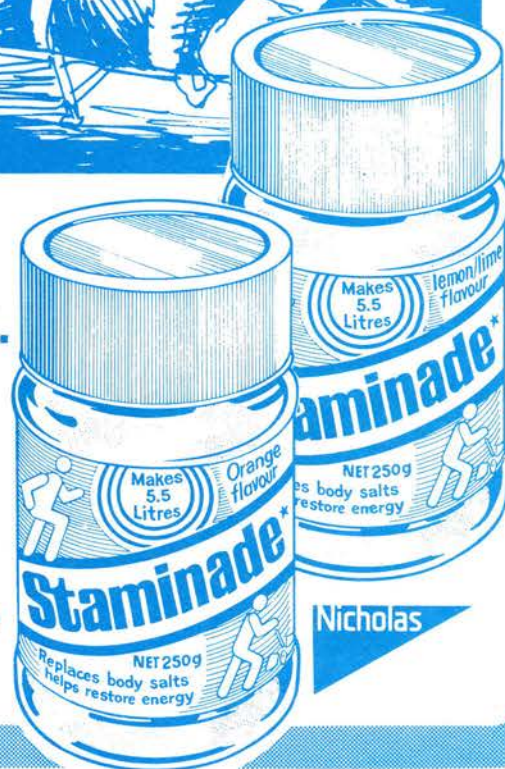

pyrox 
The people heaters

**When the heat's on
as you burn up the river,
a cool drink of Staminade
will help.**

Staminade puts back
what the sweat takes out ...
your body salts ...
your stamina

**NOW AVAILABLE
IN ORANGE FLAVOUR**

Nicholas
