PRESIDENT' WELCOME

WELCOME to all competitors, coaches, managers and particularly 'hangers-on' to the 1987 Australian Universities Rowing Championships and the Trans-Tasman Junior Challenge.

This year sees a large field of competitors with 13 universities involved, which should provide some excellent competition and entertainment.

The emphasis for this years' AURC (or should I say IU), was for a little more social interaction. Thus, we have arranged the Mixed four event along with the usual Handicap (madcap) event, to achieve this. And, if you can't be bothered going in these - why not meet some new pals at the Happy Hours in the Log Cabin Motor Inn from 5-6pm.

A number of restaurants, a chemist, liquor store and Golf Club have agreed to offer between 5-10% discount to all AURC and TT people on presentation of your special ID card. (All of these companies are listed further on in this booklet.)

I do hope you'll make good use of them!

On behalf of the UNSWRC I would like to thank the Union of Boat Race Officials whose assistance with this regatta makes it all possible. Also, many thanks to the NSW Rowing Association, and in particular to John Keane - without him, where would we be?? (Stuck on a bank somewhere.)

Okay - Happy Rowing times to you all.

**Debbie Fox
UNSW ROWING CLUB**

CHAIRMAN'S WELCOME

On behalf of the Executive and the members of the NSW Rowing Association I am pleased to welcome all competitors, officials, and supporters to the 1987 Deloitte Haskins & Sells Australia - New Zealand Junior Challenge, and the Australian Universities Rowing Championships on the Nepean River.

Competitors of today race at a far higher level of fitness and competitiveness than ever before, so we trust that you will find the course and the conditions it provides as fair as possible to suit the importance of this occasion; many have worked tirelessly for some time to make this combined regatta a success and a pleasure to participate in, as well as to watch.

There is no doubt that many of the competitors taking part in this regatta will move on in the next few years to represent their countries in the World Championships, perhaps even the 1990 Championships at Lake Barrington. Many of them will be able to look back to this regatta and recall that it was here that they realised that they could enjoy rowing and achieve some of the highest honours a sport can bestow.

Indeed that is what our sport is about; rowing is for the rowers - not the officials, nor the onlookers, nor the selfish, but for that breed of persons who know and understand that special feeling that comes from rowing really well. I know that the sponsors and officials who have been involved in the presentation of this regatta are very happy to have been able to make the regatta just that - an opportunity to row well and enjoy the satisfaction of taking part in such an event.

On behalf of the University of NSW Rowing Club, the NSW Rowing Association, Deloitte Haskins & Sells (sponsors of the Junior Challenge) and the Australian Rowing Council, we hope that our New Zealand and Interstate visitors will take home happy memories of this regatta, and we wish all competitors the best of luck and good rowing.

Donald G Croot
CHAIRMAN
NSW Rowing Association

A Short History of the Australian Universities' Rowing Contests

The Inter-Varsity Boat Race and Rowing Championships is one of the oldest established sporting events in Australia.

The first Inter-Varsity Boat Race was held on December 20, 1870, between four-oared crews representing the Universities of Sydney and Melbourne over a three-and-a-half mile course on the Yarra River. In the week following the Boat Race the participants also took part in the first cricket matches between the two universities. Apart from an event contested by representatives of the colonies of New South Wales and Victoria on the Parramatta River in 1863, there does not appear to have been any other contest of interstate status prior to the 1870 Inter-Varsity. The first race was won by Melbourne in 31 minutes 4 seconds. In the succeeding year a Melbourne Four again defeated Sydney, this time on the Parramatta River Course.

The race was not again contested until 1888, when an eight-oared event was staged with crews representing the Universities of Sydney, Melbourne and Adelaide, meeting on the Hambourg Reach course of the Yarra River. Melbourne was first, Adelaide second some five lengths behind, with a similar distance to Sydney in third place. Sydney, stroked by W A Conlon, recorded its first win in 1890, when it won from Melbourne on the Yarra Course. Adelaide won for the first time in 1896 when a crew stroked by W H Gosse defeated Sydney and Melbourne on the Yarra. The race has been rowed every year since 1888, except during the war years 1915-18 and 1941-45. There was no race rowed in 1965.

In 1896 a most appropriate trophy was provided for the race when Oxford and Cambridge "Blues" presented a cup as a perpetual trophy. The historic value of such a trophy makes it unique in the field of Australian sport.

Until 1920 only Sydney, Melbourne and Adelaide contested the race, but in that year Queensland sent to Melbourne a crew stroked by T J Bale which finished in third place. The next year the Queensland University crew came second, and in 1922 and 1923 the Queensland crews stroked by E B Freeman won.

In 1924 the University of Tasmania competed for the first time. In 1925, its crew stroked by R A Scott won the race from Sydney at Brisbane. Western Australia competed for the first time in 1927, when a crew stroked by F A Williams won on the Nepean River. This was the first occasion when a crew had won at its first start since the original

race in 1870; it was also the first occasion at which Universities from all states of the Australian Commonwealth were represented.

In 1956 the University of New South Wales made its first appearance at Inter-Varsity rowing and Monash entered for the first time in 1963. In 1966, the Australian National University and Newcastle University both made their debuts, and in 1969 La Trobe entered for the first time. Macquarie University first entered for the eight-oared event in 1973.

The Sculling Championship was introduced in 1927, and it was in this contest for the W D & H O Wills Trophy that Flinders and Macquarie Universities made their Intervarsity rowing debuts in 1969. The Lightweight coxed Fours Championship for the Sir Fred Schonell Cup was introduced in 1963 over a 2000 metres course and was won by Melbourne. In 1969 a Coxswainless Pair Championship over 2000 metres was introduced, with its inaugural contest being won by Melbourne. That year also saw the final break with the notion of the Thames Putney-Mortlake course of four-and-a-half miles as used by Oxford and Cambridge being a suitable model for the Australian Boat Race for the Oxford & Cambridge Cup. All events are now staged over 2000 metres on a straight course.

1975 saw the combining of men's and women's rowing contests in Franklin Tasmania. The womens events rowed that year were a Coxed Four, Coxed Pair, and Single Scull all over 1000 metres.

The Centenary Cup, donated by the NSW Rowing Association on the occasion of their hundredth anniversary was introduced in 1978 for an overall points score. In the same year, the Women's Lightweight Four and a Women's Invitation Eight were introduced, both events being won by Melbourne.

1985 saw the introduction of the Men's Heavyweight Four event which was won in the inaugural year by University of New South Wales. That year also saw the extension to 2000 metres of the course for all Women's events.

This year the Championships are being conducted on the Nepean River at Penrith. They are being conducted in conjunction with the Trans Tasman Junior Series, with the aim of further promoting interaction within the rowing community.

NOTICE TO COMPETITORS

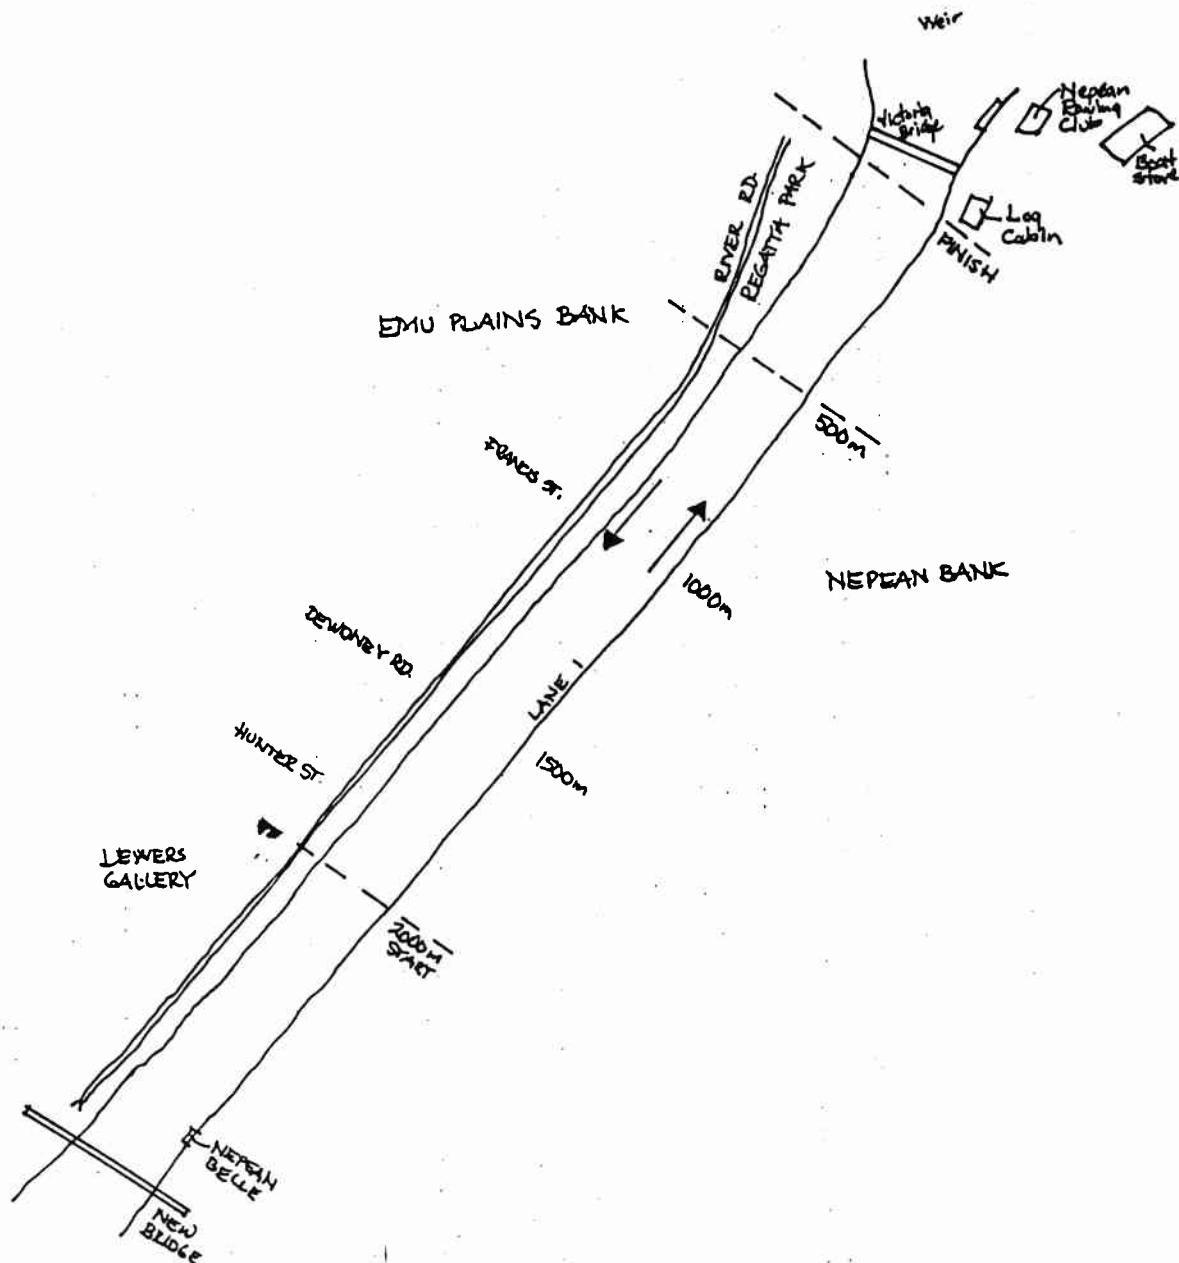

- 1 The Trans Tasman Junior Series will be conducted under the racing code of the Australian Rowing Council.**
- 2 The Representative's Meeting will be held at 5.00pm on Thursday, May 14, in the "Nepean Room", upstairs in the Log Cabin Motor Inn.**
- 3 Coxswains shall be weighed in bathing trunks or swimsuits not more than two hours and not less than one hour before their first race in any regatta. Immediately after the race the coxswain of the winning crew together with the dead weight carried (if any) shall again be weighed. The scales will be located in the enclosure underneath the verandah of Nepean Rowing Club.**
- 4 Light-weight competitors shall be weighed in bathing trunks or swimsuit not more than two hours and not less than one hour before their first race on each day of racing. They are not required to weigh in after winning a race.**
- 5 Coxswains of men's races must be a University student and a minimum weight of 55kg. Coxswains of women's races must be a University student and a minimum weight of 45 kg.**
- 6 Lightweight races are restricted to male rowers and scullers weighing 72.5kg or less and female rowers and scullers weighing 59 kg or less, provided that the average weight of all members of the crew in which such rower races (excluding the coxswain) does not exceed 70kg in the case of male rowers and 57 kg in the case of female rowers.**
- 7 Crews have the right to replace up to fifty percent of their rowers and the coxswain as well, with other eligible competitors. Notification of crew changes must be made in writing to the Regatta Secretary at least one hour before the start of the race. No substitute is permitted for a single sculler. Substitutions between heats and finals may not be made in a crew which has already raced in a heat of its event except in the case of serious illness or accident in which case a medical certificate shall be tendered to the Referee and the Jury shall determine whether such a change shall be permitted.**
- 8 THE REGATTA SHALL BE CONDUCTED UNDER THE RACING CODE OF THE AUSTRALIAN AMATEUR ROWING COUNCIL EXCEPT WHERE THOSE LAWS CONFLICT WITH THE AUSA PROVISIONS AND REGULATIONS, IN WHICH CASE AUSA PROVISIONS AND REGULATIONS WILL PREVAIL.**
- 9 Competitors must be at their starting positions at least two minutes before the time laid down for the start. The Starter may warn or exclude from the race any crew arriving at its starting position less than 2 minutes before the starting time. A warning has the same effect as one given for a false start.**
- 10 The start is not delayed for broken oars, fittings or equipment unless the Umpire in hi/her discretion so decides.**
- 11 As soon as the Judge at the Start is satisfied that the boats are properly aligned, he/she indicates this to the Starter by raising a white flag. The Starter raises a red flag and after making sure all crews are ready gives the warning command "ARE YOU READY?" and after a clearly marked pause, the starting command "GO", at the same time quickly lowering the red flag to one side.**

- 12 If a crew starts too soon the Judge at the Start informs the Starter and Umpire by waving a red flag and by ringing a bell. The Starter stops the race by ringing a bell and waving a red flag.
- 13 Any crew or sculler responsible for two false starts shall be excluded from the race.
- 14 In the event of any damage to a boat or equipment within the first hundred metres from the start the race shall be stopped and restarted from the original point, at a time to be determined by the Umpire in consultation with the Referee.
- 15 If a crew or sculler is about to impede another by its wash or by leaving its lane the Umpire raises a white flag and calls to the crew at fault, indicating the required change of direction by lowering the flag to one side. If a crew is about to cause a collision the Umpire may call its attention by raising the white flag and giving the command "STOP".
- 16 Crews interfering with their opponents may be excluded from the race by the Umpire but normally only after a warning has been given.
- 17 If a crew's chances of qualifying for or of winning a final are prejudiced by interference, the Umpire shall stop the race by waving a red flag and ringing a bell. The Umpire shall impose such penalties as he sees fit and shall order a re-start from the original point, at a time to be determined by the Umpire in consultation with the Referee.
- 18 The signal to finish shall be by sound signal given by the Judge.
- 19 Immediately after the race the coxswain of the winning crew shall proceed to the scales to weigh in.
- 20 The bows of all competing boats shall be fitted with a white ball 4cm in diameter in soft rubber or similar material unless the bow is so constructed as to afford equivalent protection and visibility.
- 21 Coaching speedboats will be permitted any time on Sunday May 10, Monday May 11, Tuesday May 12. On Wednesday 13 and Thursday 14, speedboats will be permitted before 8am, between 10.30am and 1.00pm and after 4.00pm. There will be no speedboats permitted on the course on Friday 15 and Saturday 16. There is a speed limit of 8 knots.
- 22 On Friday 15 and Saturday 16 there will be no training on the river between the start and finish.
- 23 The course will be bouyed from Sunday 10 May with four lines of bouys giving 3 lanes which are two crews wide. Lane 1 is on the Eastern Bank (Nepean side) and Lane 7 is on the Western Bank (Emu Plains side). Until Friday the lanes will be used as follows:
Lanes 1-2 will be for crews travelling down river continuously, i.e. doing a 2,000 metre course;
Lanes 3-4 will be for crews travelling down river whilst carrying out exercises or doing short pieces;
Lanes 5-7 will be for crews travelling up river i.e. from finish to start.

- 24 When boating use right hand side of wharf with bow ball pointing towards the weir - proceed to Emu Plains side of river before going under the bridge. When returning come in on the left hand side of the wharf.

The Weights Steward will be on duty between 9.00am - 10.00am and 1.00pm - 2.00pm on Tuesday 12, Wednesday 13 and Thursday 14. He will be located in the Kitchen of the Schools Shed. (To the right of Nepean Rowing Club at top of hill.)

- 25 Events will be conducted as straight finals where one to seven crews are competing. In those events requiring heats, heat winners will proceed directly to the final and other crews will compete in repechages. If there are 8 crews competing, there will be one repechage and the first 4 crews in the repechage will join the heat winners in the final. If there are 9 to 12 crews in an event, there will be two repechages and the first two crews will join the heat winners in the final. The draw for lanes in the final will follow one of the FISA options, if heats and repechages have been rowed.

UNIVERSITIES' COLOURS

Adelaide	White, with Black U
A.N.U.	White, with light and dark blue band
Flinders	Dark blue, light blue and white

JOLLY GOOD BROKING WEATHER.

FOR OVER 30 YEARS K. J. Polkinghorne & Co has built an enviable reputation as traditional Stockbrokers by looking after the needs of private investors.

Our clients' share portfolios range in size from a few thousand to over 10 million dollars.

Our interest continues to be in the long term financial well being of our clients, their families and their family companies. And, because we like to do things in a traditional way, we have little interest in speculative investments.

Since 1956 we have enjoyed the trust of thousands of private investors and our clients have seen how determined we are to

ensure their best interests are always served first. They have come to rely on the quality of advice we have offered.

We all know how financial situations change. Sometimes unpredictably and often over a period of time.

At K. J. Polkinghorne & Co. we understand and respect this fact. However, when the time comes and you'd like to discuss your share portfolio, fixed interest investments, short term cash investments, estate matters or superannuation, please don't hesitate to call on us. Ask for Ross Polkinghorne. He will be happy to set you on a winning course.

K. J. Polkinghorne & Co.

YOUR CAREER

Deloitte Haskins+Sells

ACCOUNTING CADETSHIPS

SYDNEY — PARRAMATTA — CHATSWOOD

At Deloitte Haskins & Sells, Chartered Accountants we provide our national and international clients with professional financial services in areas as diverse as:-

- Accounting and company secretarial
- Audit
- EDP
- Microcomputer consulting and services
- Receivership and Insolvency
- Tax and Tax Consulting
- Management Consulting
- Mergers and Acquisitions
- Marketing and Research

The cadetship is known as the 2 + 2 and allows for 2 years work with part-time study, and then 2 years full-time at University with intervening Christmas vacations being used for further work experience.

BENEFITS

Education

During your 2 years work you will receive extensive in-house education tailored to your career and course needs.

Study Leave

During part-time study you are allowed an afternoon per week to attend lectures. In addition you receive 12 days per year for study prior to exams.

Fees

Full payment of University fees plus reimbursement of up to \$250 per year for textbooks.

APPLICATIONS

The number of positions is limited. If you expect to achieve an HSC ranking in the top 20% and wish to discuss your future with us, please write to:-

Personnel Manager, attaching personal details and copies of your most recent school reports. Applications close June 30, 1987.
