WELCOME

On behalf of the Melbourne University Sports Union and the Australian Universities Sports Association I would like to take this opportunity of welcoming all competitors and officials to the 1989 Australian Universities Rowing Championships.

The University of Melbourne is pleased to be hosting an event with such a strong history of participation and top level competition. I am sure that 1989 will continue the tradition.

I wish all crews the best of luck in your events and hope that you have an enjoyable and successful regatta.

AUSTRALIAN UNIVERSITY ROWING CHAMPIONSHIPS

- A SHORT HISTORY -

The Inter-Varsity Boat Race and Rowing Championships is one of the oldest established sporting events in Australia.

The first Inter-Varsity Boat Race was held on December 20, 1870, between four-oared crews representing the Universities of Sydney and Melbourne over a three-and-a-half mile course on the Yarra River. In the week following the Boat Race the participants also took part in the first cricket matches between the two universities. Apart from an event contested by representatives of the colonies of New South Wales and Victoria on the Parramatta River in 1863, there does not appear to have been any other contest of interstate status prior to the 1870 Inter-Varsity. The first race was won by Melbourne in 31 minutes 4 seconds. In the succeeding year a Melbourne Four again defeated Sydney, this time on the Parramatta River Course.

The race was not again contested until 1888, when an eight-oared event was staged with crews representing the Universities of Sydney, Melbourne and Adelaide, meeting on the Hambourg Reach course of the Yarra River. Melbourne was first, Adelaide second some five lengths behind, with a similar distance to Sydney in third place. Sydney, stroked by W A Conlon, recorded its first win in 1890, when it won from Melbourne on the Yarra Course. Adelaide won for the first time in 1896 when a crew stroked by W H Gosse defeated Sydney and Melbourne on the Yarra. The race has been rowed every year since 1888, except during the war years 1915-18 and 1941-45. There was no race rowed in 1965.

In 1896 a most appropriate trophy was provided for the race when Oxford and Cambridge "Blues" presented a cup as a perpetual trophy. The historic value of such a trophy makes it unique in the field of Australian sport.

Until 1920 only Sydney, Melbourne and Adelaide contested the race, but in that year Queensland sent to Melbourne a crew stroked by T J Bale which finished in third place. The next year the Queensland University crew came second, and in 1922 and 1923 the Queensland crews stroked by E B Freeman won.

In 1924 the University of Tasmania competed for the first time. In 1925 its crew stroked by R A Scott won the race from Sydney at Brisbane. Western Australia competed for the first time in 1927, when a crew stroked by F A Williams won on the Nepean River. This was the first occasion when a crew had won at its first start since the original race in 1870; it was also the first occasion at which

Universities from all states of the Australian Commonwealth were represented.

In 1956 the University of New South Wales made its first appearance at Inter-Varsity rowing and Monash entered for the first time in 1963. In 1966, the Australian national University and Newcastle University both made their debuts, and in 1969 La Trobe entered for the first time. Macquarie University first entered for the eight-oared event in 1973.

The Sculling Championship was introduced in 1927, and it was in this contest for the W D & H O Wills Trophy that Flinders and Macquarie Universities made their Inter-Varsity rowing debuts in 1969. The Lightweight coxed Fours Championship for the Sir Fred Schonell Cup was introduced in 1963 over a 2000 metres course and was won by Melbourne. In 1969 a Coxless Pair Championship over 2000 metres was introduced, with its inaugural contest being won by Melbourne. That year also saw the final break with the notion of the Thames Putney-Mortlake course of four-and-a-half miles as used by the Oxford and Cambridge being a suitable model for the Australian Boat Race for the Oxford & Cambridge Cup. All events are now staged over 2000 metres on a straight course.

1975 saw the combining of men's and women's rowing contests in Franklin, Tasmania. The women's events rowed that year were a Coxed Four, Coxed Pair and single scull all over 1000 metres.

The Centenary Cup, donated by the NSW Rowing Association on the occasion of their hundredth anniversary was introduced in 1978 for an overall points score. In the same year, the Women's Lightweight and Women's Invitation Eight were introduced, both events being won by Melbourne.

1985 saw the introduction of the Men's Heavyweight Four event which was won in the inaugural year by the University of New South Wales. That year also saw the extension to 2000 metres of the course for all Women's events.

This year's championships will be held at the newly completed National Water Sports Centre at Carrum. This will be the venue for the Olympic games if Melbourne is successful in its bid for the 1996 Olympic Games.

NOTICE TO COMPETITORS

1. Coxwains shall be weighed in bathing trunks or swimsuits not more than two hours and not less than one hour before their first race in any regatta. Immediately after the race the coxwain of the winning crew together with the dead weight carried (if any) shall again be weighed. The scales will be located to the right of the commentary position.

2. Light-weight competitors shall be weighed in bathing trunks or swimsuit not more than two hours and not less than one hour before their first race on each day of racing. They are not required to weigh in after winning a race.

3. Coxwains of men's races must be a University student and a minimum weight of 55kg. Coxwains of women's races must be a University student and a minimum weight of 45kg.

4. Lightweight races are restricted to male rowers and scullers weighing 72.5kg or less and female rowers and scullers weighing 59kg or less, provided that the average weight of all members of the crew in which such rower races (excluding the coxwain) does not exceed 70kg in the case of male rowers and 57kg in the case of female rowers.

5. Crews have the right to replace up to fifty percent of their rowers and the coxwain as well, with other eligible competitors. Notification of crew changes must be made in writing to the Regatta Secretary at least one hour before the start of the race. No substitute is permitted for a single sculler. Substitutions between heats and finals may not be made in a crew which has already raced in a heat of its event except in the case of serious illness or accident in which case a medical certificate shall be tendered to the Referee and the Jury shall determine whether such a change shall be permitted.

6. THE REGATTA SHALL BE CONDUCTED UNDER THE RACING CODE OF THE AUSTRALIAN AMATEUR ROWING COUNCIL EXCEPT WHERE THOSE LAWS CONFLICT WITH THE AUSA PROVISIONS AND REGULATIONS, IN WHICH CASE AUSA PROVISIONS AND REGULATIONS WILL PREVAIL.

7. Competitors must be at their starting positions at least five minutes before the time laid down for the start. The starter may warn or exclude from the race any crew arriving at its starting position less than two minutes before the starting time. A warning has the same effect as on given for a false start.

8. The start is not delayed for broken oars, fittings or equipment unless the umpire in his/her discretion so decides.

9. As soon as the judge at the start is satisfied that the boats are properly aligned, he/she indicates this to the starter by raising a white flag. The starter raises a red flag and after making sure all crews gives the warning command "ARE YOU READY?" and after a clearly marked pause, the starting command "GO", at the same time quickly lowering the red flag to one side.

10. If a crew starts too soon the Judge at the Start informs the Starter and Umpire by waving a red flag and by ringing a bell. The starter stops the race by ringing a bell and waving a red flag.

11. Any crew or sculler responsible for two false starts shall be excluded from the race.

12. In the event of any damage to a boat or equipment within the first hundred metres from the start the race shall be stopped and restarted

from the original point, at a time to be determined by the Umpire in consultation with the Referee.

13. If a crew or sculler is about to impede another by its wash or by leaving its lane the Umpire raises a white flag and calls to the crew at fault, indicating the required change of direction by lowering the flag to one side. If a crew is about to cause a collision the Umpire may call its attention by raising the white flag and by giving the command "STOP".

14. Crews interfering with their opponents may be excluded from the race by the Umpire but normally only after a warning has been given.

15. If a crew's chances of qualifying for or of winning a final are prejudged by interference, the Umpire shall stop the race by waving a red flag and ringing a bell. The Umpire shall impose such penalties as he sees fit and shall order a restart from the original point, at a time to be determined by the Umpire in consultation with the Referee.

16. The signal to finish shall be by sound signal given by the Judge.

17. Immediately after the race the coxwain of the winning crew shall proceed to the scales to weigh in.

18. The bows of all competing boats shall be fitted with a white ball 4cm in diameter in a soft rubber or similar material unless the bow is so constructed as to afford equivalent protection and visibility.

19. On Friday 7 and Saturday 8 there will be no training on the river between the start and finish of each racing period.

20. The course will be buoyed from Monday 3 July. Lane 1 is on the Southern bank and lane 7 is on the Northern bank. Until Friday the lanes will be used as follows:

Lanes 1-2 will be for crews travelling down river continuously, i.e. doing a 2000 metre course;

Lanes 3-4 will be for crews travelling down river whilst carrying out exercises or doing short pieces;

Lanes 5-7 will be for crews travelling up river, i.e. from finish to start.

21. When boating use right hand side of start with bow ball pointing towards the weir.

22. In those events requiring heats, heat winners will proceed directly to the final and other crews will compete in repechages. If there are eight crews competing, there will be one repechage and the first four crews in the repechage will join the heat winners in the final. If there are 9 to 12 crews in an event, there will be two repechages and the first two crews will join the heat winners in the final. The draw for lanes in the final will follow one of the FISA options, if heats and repechages have been rowed.
